

Passport to Summer Camp Discovery

Summer 2010 Day Camp Program
Discovery Science Place

WEEK 5 (JULY 5-9)

To Infinity and Beyond - Learn about the solar system, planets, stars, and constellations. Age 4-6

Mad Scientist Lab - An action packed week of fun science experiments from making slime, erupting volcanoes, and pop rockets to making butter. (Age 4-6)

Space Explorers – Become an astronomer for a week and explore the planets, stars, constellations, black holes, nebulae and distant galaxies in DSP's Star lab (portable Planetarium). Age 7-9

Gross logy - Learn about all the wonderfully gross things in your body that make you who you are! Explore the creepy crawlies that keep you clean, look a germ in the eye and even make your own boogers! Age 7-9

Space, The Final Frontier - Your mission, if you choose to accept it, is to become part of a special space adventure. Explore the solar system in our Star Lab Planetarium, create an alien and have an out-of-this-world great time. Ages 9-12

Pathfinder - What is it like to be an astronaut? How many years does it take to be a veterinarian? What do scientists REALLY do? Each day's activities will focus on a different career interest, allowing campers to learn about skills and knowledge needed to become a scientist. Age 9-12
