

## FIELD TRIP PROGRAMMING

Programs available with field trips scheduled in the morning on Tuesdays & Thursdays ONLY

- **\$2.50 per participant in addition to admission fee**
- **45 minutes sessions**
- **Additional programs available, call us!**

### PK - 1<sup>st</sup> grade:

- **Digging for Dinos** — Junior Paleontologists will love learning about dinosaurs, how they lived, and how scientists study fossils
- **Stuffy**® — Our bodies are amazing on the inside and the outside! Learn about organs, organ systems, and nutrition with our friend, Stuffy.
- **Color and Light** — Hands-on exploration of color and optics using mirrors, prisms, and art!
- **Sink or Float**—Kids are the scientists in this guided discovery about the properties of matter and buoyancy.
- **Kiwi the Iguana**—Learn about reptiles and get up-close and personal with our mascot, Kiwi the Iguana!

### 2<sup>nd</sup> - 5<sup>th</sup> grade:

- **Science of Sound** — Explore sound energy and make an instrument to take home.
- **Electricity** — Hands-on discovery about conductivity, circuits, and electrical energy.
- **Fantastic Forces** — Investigate force and motion
- **StarLab® Planetarium** — Observe the night sky in our portable planetarium and take home a star finder or lunar phases flipbook.
- **Chemistry** — Junior Chemists mix up fun experiments and explore chemical reactions.
