

# THE DISCOVERY SCIENCE PLACE

spring break

2012

SESSIONS

K-2<sup>nd</sup>

## March 12 Force & Motion

Push and pull, stop and go, fast and slow. Learn about gravity, magnets, rockets, and more in this hands-on physics camp!

## March 13 Creepy Crawlies

Learn about amazing creatures living right in your backyard! Make an insect keeper to continue exploring at home.

## March 14 Let's Grow!

Got a green thumb? Learn about plants, what they need to live, and their important place in the ecosystem.

## March 15 Naturally Artistic

Look for artistic elements in the world around you, and create artistic masterpieces from natural materials.

## March 16 It's Easy Being Green!

Reduce, reuse, and recycle! There are many ways we can help our planet!

3<sup>rd</sup>-5<sup>th</sup>

March 12 Drawing From Nature  
Art & science go together beautifully as you create art and observe form, texture and color in the natural world.

## March 13 Fantastic Forces

The world is full of motion, and all motion in the world happens because of force. So how do forces and motion move our world? Find out!

## March 14 Insect Invasion!

The good, the bad, the ugly, and the just plain weird! Get up close and personal with interesting insects.

## March 15 Green Science

Learn about the science behind eco-friendly living. Recycle, cook in a solar oven, learn about alternative energy and sustainable living.

## March 16 Drama Kids

Get your 'acting feet' wet and dive in to explore drama! Fun theater and speech activities such as a mini play, silent scene and drama games.
