

Hello Discovery Science Place member!

As you may know we are transitioning to a new software system that allows for a number of positive changes here at the DSP. We will no longer be printing physical membership cards, but you do have the option of printing one at home or adding the digital card to your phone via a photo or other means. **This is especially important if you are a Premium member and plan to visit other ASTC passport program museums with your membership.**

To locate/print your digital membership card:

1. Visit <https://discoveryscienceplace.doubleknot.com/signon/4182>
2. Login to your account (if you cannot or don't have an account contact us!)
3. Click the "Registrations" tab along the top of the page.
4. Click the "View Details" square to the right of your membership listing.
5. Approximately halfway down the page you will see an area that says "Additional Documentation". Click on the link there to download a PDF of your card!

PS- Currently once you set your membership information you cannot modify it without assistance from a DSP staff member. If you need to change membership data- address, name, age of child, etc. please contact us via email or phone and we can help you do that! Thanks for your patience as we learn all the ins and outs of our new system!

Sincerely,

Chris Rasure

Executive Director
